

ADVANCED PLACEMENT EUROPEAN HISTORY

Course Details

This course is organized around, *The History Western Society (8th Ed.)*. ISBN 0-618-522-727. Each student will have a reading schedule in which the due dates of the reading correspond with the test dates. Lectures and discussions will be based on the textbook, as this is the key material found on the AP European History exam. The instructor will work to explain the text material and open the class for discussion to further aid the students understanding of the material. Other material will be discussed, including assigned extra-text material and essays.

One Test is given per chapter for a total of twenty chapters. It is critical that the student takes all exams very seriously and approaches each honestly. Each student must maintain at least 70% average on the Tests. If a student scores less than 70% on any test, he or she must re-read the chapter. Tests will include four mini-essays and thirty multiple choice questions; these questions will assist students in practicing overall writing skills and utilization of their critical thinking skills, as well as, assess knowledge and understanding of the material. The student is not allowed to refer to the textbook, notes or any other materials once he/she has begun the take-home test.

The instructor will assign numerous essay assignments, worksheets and practice exams throughout the year. These assignments must be taken seriously. Students should commit effective effort in order to gain critical skills and knowledge necessary for success on the AP Exam. All late home work will receive an automatic 30% grade reduction.

Essay writing skill development is of particular importance. About twelve major essays will be assigned over the course of the year. The instructor will teach the student the AP rubric and evaluate each essay according to the rubric. Over the course of the year, the student will obtain tools and skills that develop his or her writing style in accordance with the AP rubric. The student will find these tools invaluable in future courses that involve writing.

Semester Grade:

Test	60%
Assignments	20%
Essays	20%

Because this course is created for home schoolers, the home schooler's parents will decide the final grade to be issued to the student. The homeschool is considered a legal private school under state law that is headed by the parent. The instructor is only a hired vendor reporting what he believes is an accurate reflection of the student's performance in this course

Other Notes:

The exam should be about \$84.00 payable to the EIE who will then make a payment for all EIE students. If the student is online, he/she will make arrangements with their local high school's AP Coordinator.

Mr. Cruthers will work with the student throughout the school year to help him or her learn the material and pass the exam; however, he **cannot guarantee that all students will pass the exam**. Many universities, including Stanford and Ivy League schools will demand rigor from the course and examination process or otherwise not agree to give credit for these courses.
